

UNIVERSITY OF SOUTH CAROLINA

BUDGET DOCUMENT

Fiscal Year 2010-2011

Presented to the Board of Trustees

NOTE: This document is based on the current information for the proposed FY2011 budget as recommended to the Board of Trustees on June 18 and June 25, 2010. During the budget cycle, changes will occur based on a number of factors including post-closing accounting entries for FY2010 affecting carryforward amounts, revenue revisions, new plans for programs, adjustments for enrollments, and numerous other factors. Periodic reports will be provided to the Board of Trustees as the fiscal year proceeds and budgetary changes are made.

EXECUTIVE SUMMARY

The University of South Carolina's budget process is a comprehensive planning effort representative of the vision of the University to provide research, teaching, and service for the citizens of the State of South Carolina. The process involves participation beginning at the department level and reaching out to all campuses as we develop budgets which will reflect the investments identified to significantly enhance our academic reputation, benefit our students and contribute to the economic and societal health of our state.

USC COLUMBIA

State Appropriations All higher education institutions in South Carolina experienced two mid-year reductions in FY2010. For the Columbia campus and the School of Medicine, total reductions in the fiscal year were \$12,455,898. To begin the FY2011 fiscal year, base appropriations will be reduced by 21% - a total of \$26,989,369 for Columbia and the School of Medicine. Total base state reductions since FY2008 are approximately \$85M – a 46% decline. The Governor vetoed the Access and Equity funding for all of higher education. This veto was sustained and results in a loss of \$59,250 for Columbia and \$14,008 for the School of Medicine.

Several Columbia “below-the-line” state funded items were deleted for FY2011 by Governor's vetoes that were sustained by the legislature. Funding for the African American Professors Program, Nanotechnology, Hydrogen Fuel Cell Research, the Congaree/Freshwater Initiative, and the Technology Incubator was eliminated. This is an additional loss of \$1,623,719.

Federal Stimulus funding, part of the State Fiscal Stabilization Fund Program in the American Recovery and Reinvestment Act (A.R.R.A), if available, is expected to be \$26,892,783 for USC Columbia and the School of Medicine. These are non-recurring funds that were available in FY2010 and FY2011. SFSF funds were intended to offset the full 21% budget reduction; however there is a \$96,586 discrepancy between USC Columbia and USC Beaufort to ensure that USC Beaufort received at least the same amount in FY2011 as in FY2010.

Pay Package For FY2011, there is no state pay package. There is an expected 10.3% increase in employer contributions for health insurance as of January 1, 2011. A portion of the six month cost of the employer increase will be funded by the tuition increase and units will be expected to cover the balance in FY2011 and the annualized cost will be examined in the FY2012 budget development process. At this time there is no expected increase for the South Carolina Retirement System, worker's compensation and unemployment insurance. Due to the insolvency of the South Carolina unemployment fund, increases in the future are expected.

Tuition and Fee Increase Full-Time Resident Undergraduate: Tuition and Fees increase of \$315 per semester
Full-Time Resident Graduate: Tuition and Fees increase of \$351 per semester
Full-Time Resident Medical Student: Tuition and Fees increase of \$1,360 per semester
Full-Time Resident Law Student: Tuition and Fees increase of \$601 per semester

Budget Priorities The student tuition and fee increases allow USC to fully fund the required increases in utilities, provide inflationary funding for library materials, and cover the increased costs of disposal of hazardous materials and the tort, property and casualty insurance. Funds totaling \$8,000,000 will provide assistance to academic units to offset a portion of the state budget reduction. Tuition funds will also address strategic priorities including an increase to the undergraduate student fee waivers, operating support for the OneCarolina project, Development, Communications and Legal. The increased board mandated fees inside tuition provide support for increasing the number of buses and routes for the campus shuttle system, support for the Student Health Center and critical support for renovations.

Impact of Enrollment The Fall 2010 freshman class is projected to be in the 4200 student range, an increase over the prior year's class. Total headcount undergraduate enrollment in Fall 2009 was 20,494, a 3.69% increase over the prior year. Total Columbia and School of Medicine headcount enrollment was 28,481.

USC SENIOR AND REGIONAL CAMPUSES

State Appropriations Each campus experienced two mid-year reductions in FY2010. Total reductions in the fiscal year were \$2,630,040. To begin the FY2011 fiscal year, base appropriations will be reduced by 21% - a total of \$5,698,756. All seven campuses will continue to receive funding for technology from the South Carolina Education Lottery although the total available is contingent on increased unclaimed prizes. Expected Federal Stimulus Funding for the system campuses totals \$5,698,756 to match the 21% cut and is available for FY2011 only. USC Beaufort also receives \$96,586 of the stimulus funds from USC Columbia due to the Senate Finance Committee decision to allocate at least the prior year amount to all higher education institutions. The Governor vetoed the Access and Equity funding for all of higher education. This veto was sustained and results in a loss of \$37,116 for the campuses. These funds were allocated via the Commission on Higher Education.

USC SYSTEM

The USC Columbia total current funds budget comprises 75% of the total USC system budget. In FY 2011 for the Columbia campus, tuition and fees account for 42.4% of the total budget with state appropriations providing 10.3% of funds. Unadjusted for inflation, base state funding is now at the 1984 level. Just ten years ago, in the FY2001 year, tuition and fees were 23.7% of the budget and state appropriations were 38.5% of current funds.

When adjusted for inflation, the growth is approximately \$112M. USC System FTE have increased by more than 10,000 students – growth of 36%. Total Current Funds expenditures per FTE student have decreased by 14% in ten years when adjusted for inflation.

The “A” Funds Operating Budgets for the system campus total \$576,612,902, 51% of the total current funds budget. These are the funds used to operate the campuses and exclude auxiliaries, grants and other non-operating funds.

Note: No pay package or health insurance increase allocated in the Appropriations Act, however there may be some small funding for the health insurance increase of 10.3% that is effective January 1, 2011. There is no planned or funded increase in the employer contribution to the South Carolina Retirement system for retiree COLAs.

Governor's vetoes sustained are revised as of June 17, 2010. For the Columbia campus Below-the-Line funding for Hydrogen, NanoCenter, Technology Incubator, Congaree/Freshwater and the African American Professors Program are deleted. All campuses lost Access and Equity funding. For the Senior and Regional Campuses, the detail workbooks do not include the deletion of Access and Equity since it is not recurring base funding.

Federal Stimulus funding was not included in the annual operating budget in FY2010 for any USC Campus, but is included in FY2011. Requests for stimulus funding will be solicited from the Columbia campus units and system campuses following adoption of the annual operating budget. The expectation and guidance is that stimulus funds be used for special non-recurring initiatives that address strategic priorities under Focus Carolina. As in FY10, the University will comply with the intent of the stimulus funding law and report as required to the state and federal government.

FEE DESCRIPTION	NOTES	FULL-TIME (1)		PART-TIME (1)	
		CURRENT YEAR 2009-10	PROPOSED 2010-11	CURRENT YEAR 2009-10	PROPOSED 2010-11
NOTES					
1) Full-time fees per semester, unless otherwise noted [see note (10) below for exceptions]. Part-time fees stated per credit hour. Part-time is defined as fewer than 12 hours. Part-time fees apply to summer sessions unless otherwise noted. Most fees listed in the Full-Time columns are applicable to all students. Unless otherwise noted, all tuition and fees reviewed and approved by the USC Board of Trustees in June 2010 become effective in Fall 2010.					
2) USC Columbia - Chapter 33 veterans entitled to the maximum benefit rate (based on service requirements) who apply for the Yellow Ribbon Program at USC and are deemed eligible may receive a tuition abatement as follows: Undergraduate students - 50% of tuition and fee charges in excess of the VA maximum amounts for SC not to exceed \$5,700 annually; Graduate/Professional students - 50% of tuition and fee charges in excess of the VA maximum amounts for SC not to exceed \$3,400 annually. The number of eligible students is limited based upon the terms of the annual Yellow Ribbon Program Agreement.					
3) Free tuition per state law for: children of certain deceased and other veterans, firefighters and law enforcement officers, essay winner for Governor's Committee on the Employment of the Physically Handicapped, and resident 60 years or older on space available basis.					
4) Only Columbia campus students named as McNair, Cooper, McKissick, Lieber, and Alumni scholars.					
5) Non-Resident Athletics scholarship implies athletic grant-in-aid at the USC Columbia Campus. This rate may not apply to all scholarship student-athletes, based upon designation by the Athletics Department. The Office of Student Financial Aid and Scholarships awards grants-in-aid in accordance with NCAA, conference and institutional guidelines.					
6) Full-time undergraduate students on Columbia, Aiken, Beaufort and Upstate campuses and all full-time graduate students will pay an additional charge for each credit hour above sixteen hours.					
7) Graduate rates listed under USC Columbia apply to all campuses. Fees for senior and regional campuses are for undergraduate students only.					
8) USC Columbia - Undergraduate application fee waived only for South Carolina residents who present a College Board fee waiver or a National Association for College Admissions Counselors waiver.					
9) The matriculation fee is paid only once by undergraduate students during their entering semester through the campus where they initially enroll. The fee will be charged again if a student enrolls in a masters or doctoral program of study.					
10) Capstone scholar fee is payable in student's first and second year of the program.					
11) The optional athletic event fee includes the per semester athletics activity charge and the athletics bond charge.					
12) Insurance charge as required for graduate students and any other students who opt into third-party program.					
13) Mandatory Study Abroad Insurance expected to be implemented in Spring 2011. Fee is pending solicitation and selection of insurer. Approval of the fee amount will be submitted to the Board of Trustees in Fall 2010.					
14) Dual Enrollment Courses - USC System Campuses may waive the dual enrollment charge or charge less than the \$66 per credit hour rate with 4% fee waiver capacity for resident students. This rate applies to all campuses except USC Sumter. USC Sumter's rate is \$76 per credit hour. This rate applies to full and part time students regardless of status.					
15) Certified Teacher Rate is \$396 for resident students per hour for the Columbia campuses. The rate is \$475 for non-resident students per hour for the Columbia campus. These rates are a 10% reduction from the regular graduate rate. The Certified Teacher Rate for Aiken and Upstate is \$320 for resident students per hour and \$350 for non-resident students per hour.					
16) Supervisory Teacher Rate is \$5 per hour for non-Columbia campuses. Rate for Columbia increased from \$5 to \$50 per hour in FY2009.

APPENDIX 2
UNIVERSITY OF SOUTH CAROLINA
OVERVIEW OF STATE BUDGET PROCESS

The state or external budget planning process involves the Commission on Higher Education, the Governor, and the General Assembly.

The state budget process, outlined in Figure 1, begins with a state agency's submission of budget requests to the Governor. These requests include the "base budget," special program requests and the Agency Activity Inventory. In the case of higher education, public universities and colleges submit their requests through the Commission on Higher Education (CHE), which in turn submits a request to the Governor on behalf of all institutions. CHE does not have the authority to change the requests submitted by the institutions, but the CHE must recommend funding levels for special program requests and set priorities for capital projects before submitting them. Excerpts from the CHE's state law follow:

SECTION 59-103-35. Submission of budget; new and existing programs.

All public institutions of higher learning shall submit annual budget requests to the commission in the manner set forth in this section. ... The budget request for the public higher education system shall be submitted by the commission to the Governor and appropriate standing committees of the General Assembly in conjunction with the preparation of the annual general appropriations act for the applicable year. ... No new program may be undertaken by any public institution of higher education without the approval of the commission. The provisions of this chapter apply to all college parallel, transferable, and associate degree programs of technical and comprehensive education institutions. All other programs and offerings of technical and comprehensive education institutions are excluded from this chapter. [Act 359 of 1996]

CHE Budget Request and Performance Funding. The law requires that all higher education funding, except funds specifically earmarked by the General Assembly, be based on the performance-based funding methodology developed by the CHE. One of the duties imposed on the CHE by this act is the following:

(b) base the higher education funding formula in part on the achievement of the standards set for these performance indicators including base-line funding for institutions meeting the standards of achievement, incentive funding for institutions exceeding the standards of achievement, and reductions in funding for institutions which do not meet the standards of achievement...

In its request to the General Assembly, the CHE considers statewide needs of higher education. Also, the Commission solicits and considers capital and earmarked "below-the-line" budget request items from all institutions.

Establishment of Funding Base. There are two major components of the CHE's overall Performance Funding plan. The first component, the Mission Resource Requirements model (MRR), is the estimate of the fiscal needs of an institution. This computation establishes a base funding need to which performance ratings are applied. The second component is the determination of a funding percentage based on institutional ratings on indicators of performance, accomplished through the Resource Allocation Plan that actually determines institutional funding levels.

As indicated in Figure 1, the fiscal year 2010-2011 budget process began in the fall of 2009 with the University's submission of required data to the CHE for computation of the Mission Resource Requirements (MRR) for higher education institutions. The data submitted to the CHE include the following:

- Student Credit Hours by Discipline
- Number of Full Time Equivalent Students (Student FTEs)
- Number of Full Time Equivalent Faculty (Faculty FTEs)
- Expenditures by Major Area - Instruction, Research, Public Service, Libraries, Student Services, Plant Operation and Maintenance, and Administration
- Facilities Data and Other Information to Support the MRR Computation
- Revenue Generated by the Institution through Tuition and Other Fees.

These and other data elements contribute to computation of the Mission Resource Requirement, which is intended to define the total required costs of operating each of the state's 33 institutions. Peer national and regional cost data are examined to help compute the required costs of various program areas, instruction, research, public service, facility operation and maintenance, student support, and other areas. After computing the operational costs, the expected student fee revenue must be deducted. According to the CHE: "The total Education and General (E&G) cost amount must be reduced by these student revenues in order to determine the amount of support required from the State."

E&G costs exclude auxiliary enterprise activities such as housing, food service, and athletics, since these activities are self-supporting. The S. C. Commission on Higher Education has used the MRR to determine operating funds of the institutions and in the development of its funding request presented to the General Assembly. Due to the severe budgetary constraints faced by our state in the last decade, the level of funding from the General Assembly has not supported the recommendations of the MRR. To start FY2010, the percentage of appropriations compared to the MRR was 48.72% for the USC Columbia campus. Following the series of budget reductions, the funding appropriated was less than 45% by the end of the 2010 fiscal year.

In addition to the CHE submission, all higher education institutions are required to participate in developing an agency activity inventory database to assist in the development of the budget. This process has been in place for three full years and is coordinated by the Budget and Control Board's Office of State Budget with the Governor's Office. The Governor's aim was to build an executive budget "based on clearly articulated statewide goals" and to concentrate on outcomes and results. Agencies, including institutions of higher learning, are expected to analyze programs and assess value of the program based on the associated costs. As a companion to the agency activity inventory, each year with the submission of the annual accountability report, the University documents actual financial performance in this format.

As shown in Figure 1, the CHE's recommendations provide input for the Governor and the General Assembly as they consider budget priorities for the upcoming year. If the House and the Senate approve differing versions of the appropriations bill, a conference committee works out the differences and presents a compromise package back to the General Assembly. Following ratification of the conference committee report, the bills then go to the Governor for signature, who may exercise line-item vetoes, which the Legislature may override by a two-thirds vote.

STATE BUDGET PROCESS FOR USC AND HIGHER EDUCATION FISCAL YEAR 2010-2011

The South Carolina General Assembly passed the following legislation related to the budget and operation of the University of South Carolina for 2010-2011. This is not intended to be a comprehensive listing of all pertinent legislation, but a summary of items critical to the budget and financial operation of the University. Additional legislation may impact the University. This was the second year of the two-year session and bills that did not pass will not be carried forward into next year. All legislation may be reviewed on the web at <http://www.scstatehouse.gov/>.

APPENDIX 4**UNIVERSITY OF SOUTH CAROLINA
OVERVIEW OF INTERNAL BUDGET PROCESS**

The University of South Carolina's budget process is a comprehensive planning effort representative of the vision of the University to provide research, teaching, and service for the citizens of the State of South Carolina. The process involves participation beginning at the department level and reaching out to all campuses to develop budgets which will reflect the investments identified to significantly enhance the academic reputation, benefit students and contribute to the economic and societal health of the State.

The Board of Trustees budget document contains the University's total current funds sources and uses for the prior year, projected for the current year, and proposed for the next fiscal year. For FY 2011, a preliminary estimate for the following fiscal year (FY 2012) is included. These budgets are comprised of both unrestricted and restricted funds for each campus of the University of South Carolina system. The University's "A" Fund budget is considered the operating budget of the University and is the focus of the budget presentation and discussion. "A" fund sources are primarily tuition and fee revenues and state appropriations. Across the University system, "A" funds account for 54% of all funds.

Auxiliary units exist primarily to furnish services to students, faculty and staff. Examples of auxiliary funds are the student health center, housing, parking, and athletics. By state law, auxiliary operations must cover their costs. The budgets for restricted funds are determined by estimating current year activity and projecting possible grant activity in future years.

The internal University budget process for the Columbia Campus for Fiscal Year 2010-2011 began in the late Fall of 2009 with requests from the President and Provost for all University units to prepare strategic plan documents – Blueprints for Academic Excellence and Blueprints for Service Excellence. The budget development process continued in January with a review of the tuition and fee revenue projected and requests for new funding initiatives. Budget development for FY2011 coincided with ongoing budget projections and revisions due to state appropriations reductions throughout the 2010 fiscal year. Budget cuts for the Columbia campus were not implemented across the board, but strategically allocated.

Throughout the spring, meetings are conducted to determine strategic priorities and develop budget assumptions. The Provost, CFO or designate, and the Budget Director met with each academic dean and staff to discuss current and future funding needs included in the Blueprints. Again for FY2011 budget development, each academic unit prepared a five-year budget model that includes historical funding and allows each unit to project funding needs for the current year and for five additional years. The President, Chief Financial Officer and Provost then met with each division to review tuition and fee requests and determine budget priorities. Meetings were also held with the Chancellors of the senior campuses and Deans of the regional campuses. Included in the President's meetings were the Chair of the Faculty Senate and Chair of the Faculty Budget Committee as well as the President of the Student Government Association or their designee. The Budget Update Group met each week since the fall and throughout the spring to refine assumptions, review budget requests and develop the final recommendation for the President.

Once the budget is adopted, it is an important tool for the University staff in accomplishing the objectives and goals established for the academic year. The budget is an estimate of proposed expenditures and the means of financing expenditures for the fiscal year. One of the key actions taken by the Board of Trustees is the approval of the fee schedule

for the fiscal year, as described in the statute establishing the University:

SECTION 59-117-40. Board constituted body corporate and politic powers. The board of trustees of the University of South Carolina is and is hereby constituted a body corporate and politic, in deed and in law under the name of the University of South Carolina. Such corporation has the following powers: ... (9) To fix tuition fees and other charges for students attending the University...

The Board's budget approval is based on its power: "to adopt such measures and make such regulations as may in the discretion of the board of trustees be necessary for the proper operation of the University" (paragraph 14, Section 59-117-40). As indicated in the "Delegation of Authority" statement in Appendix 8, the budgets approved are by their very nature estimates that will vary with changing circumstances during the fiscal year.

Through FY2010 the Columbia campus budgeted by the concepts of "value centered management" in the development of "A" Fund operating budgets. This action was recommended by the Strategic Directions and Initiatives (SDI) Committee and implemented in FY 2003. Each year, the University's annual budget development process refined the initial assumptions by adapting the model so that the needs of the institution are met. Significant revisions took place in FY 2008 with a change to the allocation factors that determine each academic unit's tax. The base tax was calculated in late fall or very early spring and distributed to academic units before the Blueprints for Academic Excellence are complete. In September, the tax was recalculated for Board of Trustees approved initiatives and the pay package. At the same time as the tax recalculation, additions or deductions to state funding were spread to units and the Board approved tuition increase was calculated and entered into the financial system. The Budget Office conducted meetings with each academic unit to detail each budgetary change from the prior year.

In the previous seven years, all costs and income attributable to each academic unit were assigned to the unit. Costs include the unit's existing programmatic budgets, as well as its share of the operating funds needed to support the University's service functions. Income includes the unit's existing departmental revenues, summer school revenues, transfers, carry-forward balances, and the tuition revenue generated from the student credit hours taught by the unit. State appropriations were allocated primarily to academic units upon creation of the budget model and in FY 2008, all state appropriations were shifted to the academic units. For the state appropriations cuts in FY 2009 and FY 2010, state funds were cut from academic units, but the tax paid by those units was also lowered to account for cuts to the service units.

Service unit costs were assessed to academic units based on a formula and/or the application of direct charges. Formula based assessments resemble a tax and once determined are fixed and must be paid. Direct charges are payments for services that can be controlled through usage.

Beginning in FY 2011, the President has determined that the University must institute partial recentralization of the budget model effective July 1, 2010, to remain in effect for FY 2011 and FY 2012. This emergency measure is not a throwback to the pre-VCM era entirely in that the temporary model will preserve many of the good incentive features of a decentralized approach. The tremendous magnitude of cuts so far has left the institution's resources poorly calibrated to mission. Now that the Provost and President have examined all plans and budgets, they have the perspective necessary to improve allocations from an institutional perspective.

The budget process for FY 2011 and FY 2012 will work as follows:

- All fall and spring E & G tuition and state appropriations go to the general fund, and are offset by the combined budgets placed in all the units. The Provost will continue to allocate budget cuts for academic and academic service units, subject to President's approval.
- Academic units will receive their portion of the tuition and state funds as a single budget item, and they will continue to receive other revenues – including fees, sales proceeds, Education Foundation transfers, research funding, etc.
- An important feature is that units would no longer have a “tax-in” or a “tax-out.” The impact of overhead is still there, but there is no longer the complicated allocation methodology. In other words, units will receive budget amounts net of the tax.
- Deans and other units will keep carryforward, less a nominal surcharge to be explained separately. This will be used to solve immediate one-time needs across the institution.
- Deans will continue to capture Maymester, Summer I and Summer II tuition. (This is the way it worked pre-VCM.)
- The Provost can reallocate if tuition collections exceed expectations and make reductions if tuition collections are below expectations. Tuition reports will continue to run so unit credit hour and revenue production are still known and would be used to inform the allocation decision.
- An important feature of this hybrid model is that it will reduce enterprise risk.

The section that follows provides an overview of the activities that occurred to generate a FY 2011 “A” fund operating budget. The activities include communication and training, realigning base budgets, and requesting new funding, distributing state budget cuts and reallocations and finalizing the budget.

**OVERVIEW OF UNIVERSITY OF SOUTH CAROLINA'S
INTERNAL BUDGET PROCESS FISCAL YEAR 2010-2011**

APPENDIX 5

UNIVERSITY OF SOUTH CAROLINA COLUMBIA CAMPUS SUMMARY OF NEW AND CONTINUING FUNDING RECOMMENDATIONS FOR FY2011

Required Cost Increases

Utilities Increase	Recurring	\$ 545,550
Additional funds are needed to meet anticipated and current utility rate and consumption increases for electricity and water. Based on information provided by SCE&G, three pending electric rate increases have been requested to the SC Public Service Commission. They are scheduled to be a 3.08% in July 2010, 2.82% in October 2010 and 3.05% in January 2011. The request also includes a 25% increase in existing building load consumption for the Horizon Research Facility, a 20% increase in existing building load for the Discovery Research Facility and \$162,031 in utilities for the Thomas Cooper Library Rate Books Collection Addition.		
Environmental Health and Safety - Insurance Increase	Recurring	\$ 29,500
Funds are needed due to the annual 5% reappraisal adjustment to USC owned properties and the consequent increase in insurance premiums. Also, this increase will cover buildings that will be converted from builders' risk policies.		
Environmental Health and Safety – Hazardous Waste Disposal	Recurring	\$ 32,000
This funding is needed to cover additional waste generation resulting from increased research activities throughout campus. Additionally, funding is needed due to increases in laboratory clean-out of old chemicals to ensure EPA and DHEC compliance. Also, the new infectious waste contract will be renewed in May 2010. Indications are that the per pound infectious waste cost will increase by at least 44% above the current contract price.		
Environmental Health and Safety – Fire Extinguisher Inspection	Recurring	\$ 34,000
There are currently more than 4500 fire extinguishers on the USC Columbia campus with more than 7750 units system wide. Each extinguisher must be inspected every 30 days with maintenance annually. Additional coverage is required for new buildings.		
Increase in 4% Fee Waivers	Recurring	\$ 579,650
The State of South Carolina provides higher education the authority to waive up to 4% of tuition for undergraduate students. Additional funds are required to cover the increase in fee waivers over the prior year.		
Increase in Health Insurance Premiums	Recurring	\$ 510,800
The employer cost of the state health insurance premiums for all state employees will increase by 10.3% in January 2011. This amount will cover a portion of the six months "A" fund employer cost. The balance of the funds needed for FY11 will be a budget cut to all units. Additionally, the annualized amount will be addressed in the FY12 budget development process.		

State Budget Cut

Budget Reallocation Initiative	Recurring	\$ 8,000,000
State appropriation reductions of 21% will reduce funding available by \$23,488,306 for the Columbia campus. While additional cost containment and budget cutting measures will be implemented and additional students added, there is a need for new funding to reduce the severe impact of the budget cuts in the academic units. These funds will be allocated by the Provost to meet strategic planning goals. The funds will be collected as a new Board Mandated Fee.		

Other Strategic Priorities

University Libraries	Recurring	\$ 340,000
The University Libraries must maintain up-to-date collections of academic journals and books. Without additional funding, the Library would have to reduce the number of academic resources available to faculty, students, and researchers.		
Student Affairs – Career Center - Experiential Education	Recurring	\$ 90,000
This initiative will support outreach to employers to provide internships and co-ops to University students and will establish an experiential education class to teach students the importance of these opportunities and provide the fundamentals of searching for and securing these experiences.		

Facility Services – Maintenance for New Facilities **Recurring** **\$ 637,500**
 New base operating dollars are needed to support the operation of the Horizon and Discovery research buildings and the new Thomas Cooper Library Rare Books Collection addition.

University Development and Alumni Relations **Recurring** **\$ 1,100,000**
 Funding is required for both ongoing operations and to support new capital campaign. Current unit budget has been supplemented by non-recurring funds. Funding plan requires four years to phase in full budget.

University Communications **Recurring** **\$ 250,000**
 In FY 2010 University Advancement split into University Development and Alumni Relations and University Communications. In order to fully calibrate budgets for the split and to account for years of funding recurring budgets with one-time funds, recurring funds are required to fully establish unit budget.

Office of the General Counsel **Recurring** **\$ 226,000**
 The Office of the General Counsel provides a range of legal services to the executive, academic and administrative areas of the University system. The demands for legal services have increased in recent years. This funding will allow the expansion of the legal staff to better accommodate the University system needs.

OneCarolina **Recurring** **\$ 1,500,000**
 OneCarolina is the University's multi-year initiative to replace outdated administrative computing applications, including Student Information Systems, Finance, Sponsored Programs and Human Resources into one easily-accessible, Web-based system. This process, once complete, will re-engineer and improve business practices on all eight campuses of the USC system. In the budget cuts since 2008 the funding for the Finance, Human Resources and Payroll components was deleted, but these must be brought back in order to ensure business continuity and efficient business practices.

Internal Audit and Board of Trustees **Non-Recurring** **\$ 250,000**
 Additional operating funds are needed to provide for adequate staffing of Internal Audit function and to cover expenses associated with Board of Trustees Fiscal Policy Committee retreat. Board Office operations have been cut since FY2008 and must be restored to continue efficient office operations. Funding is expected to be provided on a non-recurring basis for FY2011 and worked into the recurring FY2012 budget.

Mandated Fee Distributions

Transportation Fee **Recurring** **\$ 200,000**
 An increase of \$5 per full time student per semester will provide additional buses and routes to campus shuttle program. This request was backed by the Student Government Association.

Student Health Center **Recurring** **\$ 650,000**
 An increase of \$16 per full time student per semester will provide \$12 for operations and \$4 towards debt service for new building. Additional funds are needed for healthcare supplies and equipment and for planned systems replacements for radiology and pharmacy.

Renovation Reserve **Recurring** **\$ 800,000**
 An increase of \$17.50 per full time student per semester will provide additional funds for deferred maintenance – a critical need for the University.

Summary

Academic Programs and Services	\$ 8,340,000
Academic Support and Student Affairs Programs	\$ 669,650
General Institutional Costs and Central Operations	\$ 4,865,350
Mandated Fee Distributions	<u>\$ 1,650,000</u>
Total Recurring Funds from Tuition	\$15,525,000
General Institutional Costs and Central Operations	<u>\$ 250,000</u>
Total Non-Recurring Funds	\$ 250,000

Other Funds

In FY10, in addition to new and continuing funding recommendations made from the tuition increase, the University applied one-time funding to the facilities master plan, the renovation of the Henderson Street Houses, maintenance of the President's House, research initiatives and the search for the new Vice President for University Communications. General Fund carryforward was also used to supplement the School of Medicine. Funds are held for FY2011 to fund the RFP for the system campus organization consultant and for additional non-recurring assistance to the School of Medicine

In FY09, the Board of Trustees authorized use of \$750,000 of the endowment income generated by the research quasi endowment and the continued use of endowment earnings as an annual component of the Research budget. Additional funding may be pulled from that account in the new fiscal year as available.

The General Fund will receive additional funding from increased direct charges and 8% allocations from "E" funds totaling a minimum of \$85,000. These funds will be available for allocation in FY11. The Special Events unit separated from University Advancement in FY2010 and currently has a \$20,000 shortfall. The first \$20,000 will be allocated to Special Events.

In FY09 the Southeastern Conference signed a new television contract that will provide additional funding to the Department of Athletics. With these additional proceeds, Athletics will provide additional financial support for academic programs and other institutional needs. The University began receiving \$1M annually for 15 years in FY10. These funds will be used for scholarships including the Gamecock Guarantee, merit scholarships, Law Scholarships and stipends for the marching band and graduate assistant health insurance. In addition, one time funds totaling \$1M were available for the first three years beginning in FY10. These funds are being held for consideration on the Roost dormitory.

APPENDIX 6

UNIVERSITY OF SOUTH CAROLINA UNRESTRICTED NET ASSETS

The University's unrestricted net assets are assets with no external restriction as to use or purpose. They can be used for any purpose designated by the Board of Trustees, as distinguished from funds restricted externally for specific purposes. Unrestricted net assets result from accumulated excesses of revenue over expenses derived from University current fund operations. The University's unrestricted current funds are derived from state appropriations, student fees, institutional revenue and auxiliary operations that are not restricted for specific purposes. The unrestricted net assets are not all in a liquid form, like cash, but also include accounts receivable, pledges receivable, inventories and prepaid items among other classifications.

Unrestricted net assets include balances from operations of Education and General (E & G) activities, further defined below, auxiliary enterprises, quasi-endowments and unexpended plant funds. For the purposes of determining the unrestricted net assets from the USC annual operations, only Education and General funds should be used.

An auxiliary enterprise is an entity that exists primarily to furnish services to students, faculty and staff. Examples of auxiliary funds are the student health center, housing, parking, and athletics. By state law, auxiliary operations must cover their costs. Quasi-endowment funds are funds functioning as an endowment that are established by the institution from either donor or institutional funds, and will be retained and invested rather than expended. Since quasi-endowments are established by the institution rather than by an external source, the principal may be expended as designated by the Board of Trustees. Unexpended Plant Funds are used for the improvement or expansion of the physical facilities of the University. Expenditures may be for land and building acquisition, construction of new facilities, major rehabilitation, renovation, remodeling, and alteration of existing facilities; original equipment for new buildings and for expanded, remodeled, or altered parts of existing buildings; or general planning studies and surveys connected with the physical planning of the campus.

E & G funds are general operating funds and departmental funds which include:

A Funds – State appropriations, student tuition and fees (E&G portion), and campus-generated and other appropriated sources.

Departmental Funds are normally unit-generated involving Student Activities, Institutional Sales & Service, and unrestricted designated activities, gifts and scholarships.

D Funds – Student Activity Fees

E Funds – General Departmental (includes IDC recoveries from grants)

R Funds – Board of Trustees controlled funds from auxiliary funds

RP Funds – Departmental Private Gifts

Generally, the accumulation of unrestricted net assets is not a desirable goal in and of itself. The expectation is that the University will use its net assets to provide programs and services that will fulfill the goals and initiatives set forth by the University and annual budgeted operating revenues should equal budgeted expenses. According to the Association of Governing Boards *Strategic Finance* publication, the university must operate in "financial equilibrium" meaning that the institution not only has a balanced budget, but that the "projected rate of change in revenue and expenses are approximately the same, endowment use is limited to preserve its long-term

purchasing power, and that the annual operating budget is not balanced by deferring maintenance or other essential expenses, thereby creating hidden liabilities.”¹

In the course of annual operations, a limited amount of unrestricted net assets may be accumulated as reserves so that resources are available for emergencies that may arise. The unrestricted net assets should not be used to fund recurring operations; but, instead, are desirable to cover sudden shortfalls in revenue, unanticipated expenses, and extraordinary one-time investments. An excess of operating funds indicates the institution is meeting budgetary goals, but it does not show the relationship between the budget and the strategic plan. This surplus may be the result of a conscientious effort to retain a portion of operating revenue for use in future years.

Shortfalls in revenue may be the result of changes in enrollment or reductions of state funding. USC is largely dependent upon student tuition and fee revenue and must be able to endure an enrollment decrease that would take four or more years to recover. Further, increases in enrollment may require additional resources to strengthen faculty and student service offerings. Enrollment fluctuations are of particular concern to the USC system campuses. Enrollment management decisions weigh the multiple factors of class size, student quality, financial need and scholarships.

During the round of state appropriations reductions from 2001-2004, USC Columbia lost more than \$46M and the system campuses lost more than \$25M due to cuts. Although student tuition and fees were raised during the state’s economic downturn to maintain the Board of Trustees initiatives, budget reductions were spread across University units. Since the beginning of FY2009 through June 30, 2009, state appropriations were reduced by another \$55M across the system. Additional mid-year reductions have been made in FY2010 including a 4.04% cut in September 2009 and a 5% cut in December 2009. To date, the latest fiscal crisis has led to reductions of more than \$70M for the USC System Campuses. It is expected that additional reductions will be made in FY2010 should collections not recover and there remains a likelihood that base cuts will be made to start FY2011.

USC has experienced a significant increase in faculty hiring, both to replace retirements and to increase the total number of faculty serving students. Start up costs include renovating and upfitting labs and purchase of equipment, data and software. Uses of one time funds this year include faculty start up costs, academic support and student affairs programs and significant investment in security improvements.

In response to the fiscal crisis the University delayed the implementation of a comprehensive administrative computing system. The OneCarolina project is the University’s multi-year initiative to replace outdated administrative computing applications, including student information systems, finance, sponsored programs and human resources into one easily-accessible, web-based system. This process has been scaled back to cover only the student information system at this time, reducing the funding needed from more than \$85M to approximately \$55M. Through June 30, 2009 the University had \$33.8M of the anticipated cost. Planning for the expenditures associated with this system allows the University to avoid externally financing the project by accumulating funds over a period of years in advance.

¹ Kent John Chabotar, *Strategic Finance: Planning and Budgeting for Boards, Chief Executives, and Finance Officers* (Washington: Association of Governing Boards of Universities and Colleges, 2006), p71.

In addition to weathering changes in enrollment and appropriations and planning for expected changes in expenditures, the University must plan in the operating budget costs not supported by the state including a portion of the pay package increase and associated increase in fringe benefits. Other expenditures are increases in the employer contribution for the state retirement system to cover the COLA adjustments, TERI payouts of annual leave, the increase in the sales tax, and the increase in the minimum wage. Although this type of inflationary increase must be covered with recurring dollars, the availability of reserves allows careful planning to ensure that the effect of these changes is not beyond the current capacity to cover these costs.

The amount of unrestricted net assets and the change from year to year has an impact on the financial ratio analysis conducted by the credit rating agencies to determine if the financial condition of the University is adequate to support the existing operation and changes brought about through capital financing. These assets allow the University the ability to control the timing of entering the bond market through use of short-term internal financing. In doing so, USC is able to secure more favorable interest rates and minimize the use of capitalized interest for long-term financing.

The interest on the investment of the E & G funds from the University's unrestricted net assets is a part of the State's general fund. The University earns interest on auxiliary funds, quasi-endowments and the unexpended plant funds.

The University is engaged in a continuous, cyclical process of planning and budgeting, not for one year, but for multiple years. Decisions concerning maintaining, building or depleting financial resources impact the budgets for several years. The USC unrestricted net assets are committed to BOT initiatives.

Since the 2003/2004 fiscal year, USC Columbia completes an annual budget using the concepts of "value centered management" in the development of "A" Fund operating budgets. This action was recommended by the Strategic Directions and Initiatives (SDI) Committee. Each year, the University's annual budget development process refines the initial assumptions by adapting the model so that the needs of the institution are met. Under this model all costs and income attributable to each academic unit are assigned to the unit. Costs include the unit's existing programmatic budgets, as well as its share of the operating funds needed to support the University's service functions. Income includes the unit's existing departmental revenues, summer school revenues, transfers, carry-forward balances, and the tuition revenue generated from the student credit hours taught by the unit. State appropriations were allocated to academic units upon creation and revision of the budget model. Service unit costs are assessed to academic units based on a formula and/or the application of direct charges. Formula based assessments resemble a tax and once determined are fixed and must be paid.

USC's Value Center Management is a form of Responsibility Centered Management that is intended to provide incentives for planning and cost effectiveness and revenue generation. Beginning in FY 2011, the President has determined that the University must institute partial recentralization of the budget model effective July 1, 2010, to remain in effect for FY 2011 and FY 2012. This emergency measure is not a throwback to the pre-VCM era entirely in that the temporary model will preserve many of the good incentive features of a decentralized approach. The tremendous magnitude of cuts so far has left the institution's resources poorly calibrated to mission.

The University does not have a policy requiring a minimum total reserves ratio based on total reserves as a percentage of prior year revenue. However, some institutions do have a policy requiring a set percentage retained. The amount of unrestricted net assets retained is one of the resource allocation decisions considered when balancing needs with available funds. Are the funds sufficient, extensive or inadequate to cover planning and budgeting? The answer is not objective, but based on review of trends in revenues, expenditures, enrollment, and other financial/management metrics. Changes are addressed annually in the Management Discussion and Analysis that accompanies the financial statement. Based on total E & G expenditures for the USC system in the 2008/2009 fiscal year, the University could cover 3 months of E & G expenditures. Total E & G unrestricted net assets is approximately 10% of the total system budget.

USC Columbia's Education & General unrestricted net assets at June 30, 2009 were \$157,196,371. Commitments of these funds are:

APPENDIX 8**UNIVERSITY OF SOUTH CAROLINA
DELEGATION OF AUTHORITY TO THE ADMINISTRATION OF THE UNIVERSITY
FISCAL YEAR 2010-2011**

In approving this budget, the Board of Trustees recognizes that the amounts shown as revenue are estimates and are subject to changes, and that the amounts shown for expenditures are a reflection of plans and workload estimates as of the time the proposed budget was prepared. The Board further recognizes that each day may bring new challenges and developments requiring adjustments in plans, programs, estimates and budget items. To provide for continuity and essential flexibility in operations, the Board of Trustees reaffirms for Fiscal Year 2010-2011 the delegation of necessary authority to the President to act in all matters, and to the Vice President for Finance and Planning to act in fiscal, contractual and other business matters, including authority in the following areas:

- to negotiate and make timely changes in contracts;
- to approve transfer of revenue and expenditures of funds of the General Appropriation Act to be retained at the Institution;
- to adjust operating, permanent improvement and other income and expenditure items; and
- to take such other actions considered necessary in fiscal, contractual and other business matters in response to changing conditions and estimates.

The Chairman of the Board, the Fiscal Policy Committee, and the Executive Committee of the full Board are to be consulted for further specific directions and approval, as conditions appear to warrant.
