The **Related Actions Menu** shows all of the actions/eForms which the user has authority to initiate on this specific employee's EMPL record.

The **Additional Pay eForm** is used to establish or update existing non-base salary adjustments. These can be either one-time or on-going based on the earnings code. All salary adjustments are considered temporary; on-going salary adjustments must have enddates. The eForm logic only displays the earnings codes for which a specific employee is eligible (based on employee type).

From the Related Actions Menu, select the **Additional Pay** option.

## Completing the Additional Pay eForm:

 In the Additional Pay eForm, click the Earnings Code lookup button (magnifying glass icon) to select the appropriate earnings code.
