THE PRACTICE OF PUBLIC HISTORY**

BULLETIN INFORMATION

HIST 214 - The Practice of Public History (3 credit hours)

Course Description:

Introduction to the field of public history. Explores the challenges of portraying history in museums, parks, and other public history venues

SAMPLE COURSE OVERVIEW

Students taking *The Practice of Public History* develop skills for analyzing and interpreting primary source materials in the context of museum exhibits, historic sites, and other public history venues.

ITEMIZED LEARNING OUTCOMES

Upon successful completion of History 112, students will be able to:

1. Use principles of historical thinking to understand human societies, specifically by examining how historical interpretation of the past is conveyed to the general public through informal settings.
2. Define and summarize historical methods and frameworks used by public historian for broad dissemination of research.
3. Recognize the differences between original historical source material (primary sources) and later scholarly interpretations of those sources (secondary sources).
4. Develop interpretive historical arguments integrating original source material and secondary sources.
5. Demonstrate basic skills in the comprehension and analysis of selected sources and their relevance in the context of historical knowledge.
6. Locate, appraise, and synthesize primary and secondary source materials, including written texts, audio/visual material, and objects/artifacts (material culture) in a final project suitable for a broad public audience.

SAMPLE REQUIRED TEXTS/SUGGESTED READINGS/MATERIALS

1. *Exhibit Labels: An Interpretive Approach* by Beverly Serrell. (Walnut Creek: Alta Mira Press, 1996)
2. *Exhibiting Dilemmas: Issues of Representation at the Smithsonian* ed. by Amy Henderson and Adrienne L. Kaeppler (Smithsonian Institution Press: Washington, D.C., 1997)
3. *Mr. Wilson's Cabinet of Wonder: Pronged Ants, Horned Humans, Mice on Toast, and Other Marvels of Jurassic Technology* by Lawrence Weschler (Vintage Books: New York, 1995)

4. *Sense of History: The Place of the Past in American Life* by David Glassberg (University of Massachusetts Press: Amherst, 2001)
5. *Silencing the Past: Power and the Production of History* by Michel-Rolph Trouillot. (Beacon Press: Boston, 1995)

SAMPLE ASSIGNMENTS AND/OR EXAM

This course will assess student achievement through the evaluation of individual student writing assignments, a final group project, and a peer assessment of participation/contribution in the group project. The writing assignments are designed to emphasize different aspects of analyzing source material (both primary and secondary) and interpreting this material for specific audiences.

1. **Exhibit Review:** As opposed to book reviews or play critiques, there is not a standard format for reviewing a museum. Professionals are divided over what course a review should take. Should the review describe the exhibit in detail for people who will be unable to visit the museum? Should it compare the exhibit to similar exhibits at other museums? Is the review an opportunity to discuss museum theory and practice? For this assignment, students are to read several reviews in a relevant academic journal, visit an exhibit at a local museum, and write a review of 1,000-1,500 words. This assignment emphasizes writing critically.
2. **Project Proposal:** An exhibit proposal is a document used by museums for planning future exhibits, coordinating a collection plan, and approaching potential donors. The proposal should include a section-by-section breakdown of the exhibit. It should also include the themes the exhibit wishes to address and how the objects will be used to substantiate the themes. The proposal needs to argue why this exhibit is important to the museum and why donors should invest in it. Each student is allowed to pick a topic of his or her choice and propose a public history project. The proposal should be 7-10 pages in length and may be used as the foundation for the final project. Any substantial changes from the proposal to the final project must be discussed and approved by the instructor. This assignment emphasizes writing persuasively.
3. **Final Project Script:** An exhibit script includes all of the words in the exhibit: titles, headings, descriptions, and object labels. It also includes a list of all objects, images, and audio/visual components. Most introductory text descriptions can be no more than 150 words, section descriptions no more than 70 words, and object labels no more than 30 words. The entire script must be edited for consistency in formatting and style. The text of the exhibit script must complement the artifacts chosen for inclusion to create a coherent message for the visitor. Although public history projects are usually limited in the number of words, they are backed by a substantial amount of research. All projects should include a heavily annotated bibliography explaining all research in detail. This assignment emphasizes writing clearly and concisely.
 - a. Final projects are team projects that will be voted on by the class, based on the project proposals. After projects are chosen, the team leader will be the student who made the initial proposal. Students will then have to apply to work on a

particular project, and the leader will get to select who will be on his or her team. Teams will be 3-5 people. This assignment emphasizes working in teams and delegating responsibility. Teams will receive a group grade for the final project, but individuals will also receive a grade from their teammates.

4. **Peer Review:** One of the hallmarks of the professional history field is the process of peer review. This is usually done following a double-blind process where an editor facilitates the review of work by one or more experts in the field and neither the author nor the reviewer knows the identity of the other. This is your opportunity to evaluate your teammates anonymously. You must critique the final project and write up your assessment of the work. Assign a grade to each one of your teammates and write a one-paragraph explanation of the grade. This assignment emphasizes writing critically and constructively.
5. **Peer Evaluation** (the average of the grades your teammates give you)
