7th Annual James E. Clyburn Health Disparities Lecture

"Moving Forward:

Making the Affordable Care Act Work

Through Research, Education, and

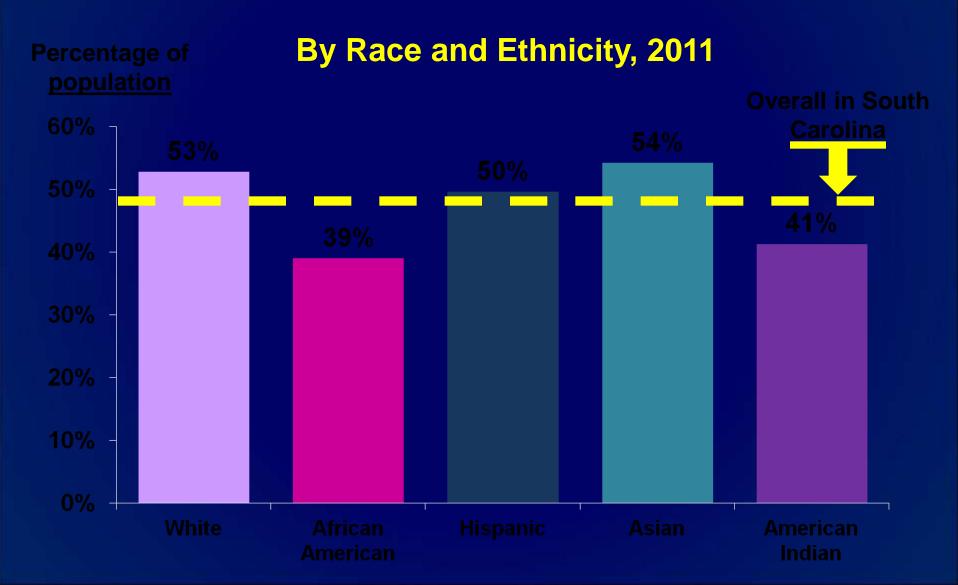

Community Engagement"

Congresswoman Donna Christensen

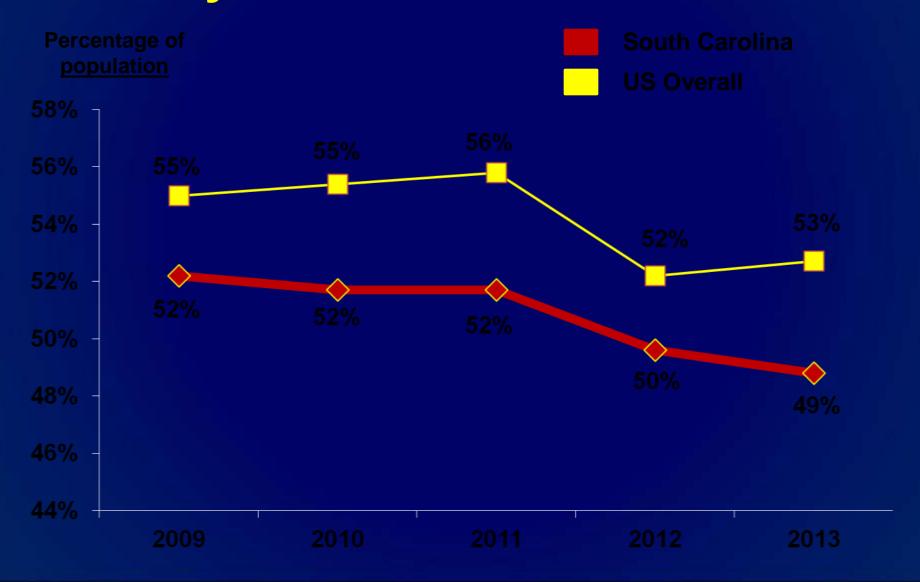

2012 NHQR & NHDR

- Health care quality and access are suboptimal, especially for minority and low-income groups.
- Overall quality is improving, access is getting worse, and disparities are not changing.
- Urgent attention is warranted to ensure continued improvements in:
 - Quality of diabetes care, maternal and child health care, and adverse events;
 - O O Disparities in cancer care; and
 - O O Quality of care among states in the South.

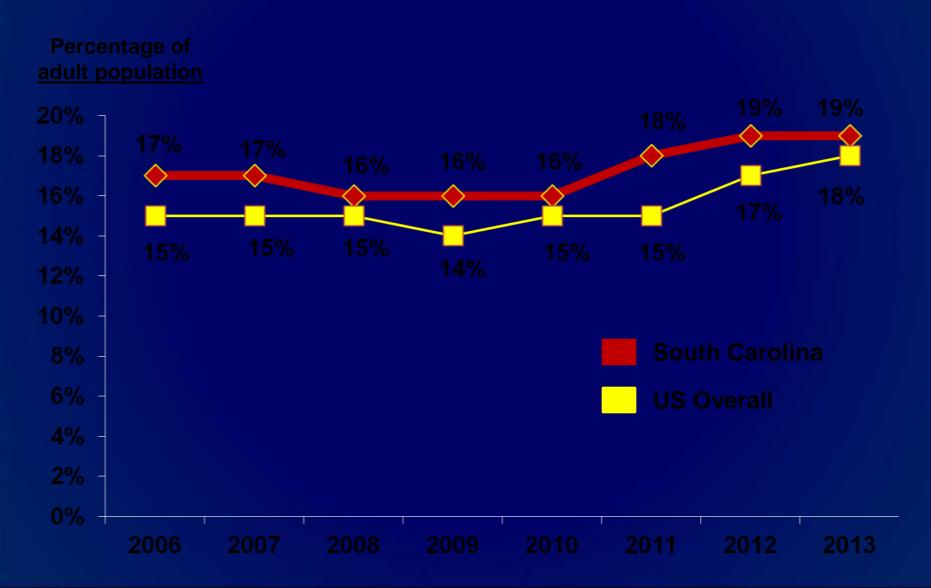

South Carolinians Who Are in "Very Good" or "Excellent" Health

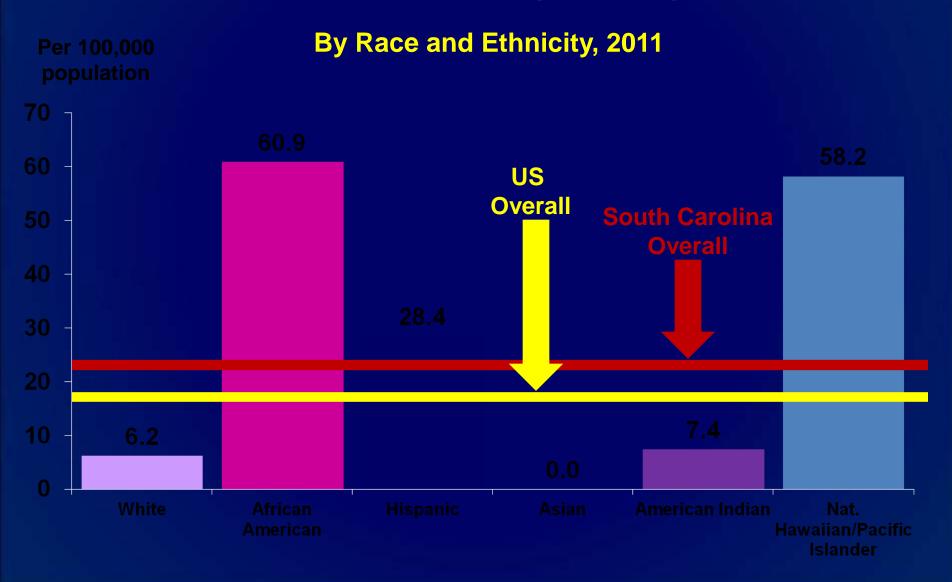

Percentage of Population Who Are in "Very Good" or "Excellent" Health

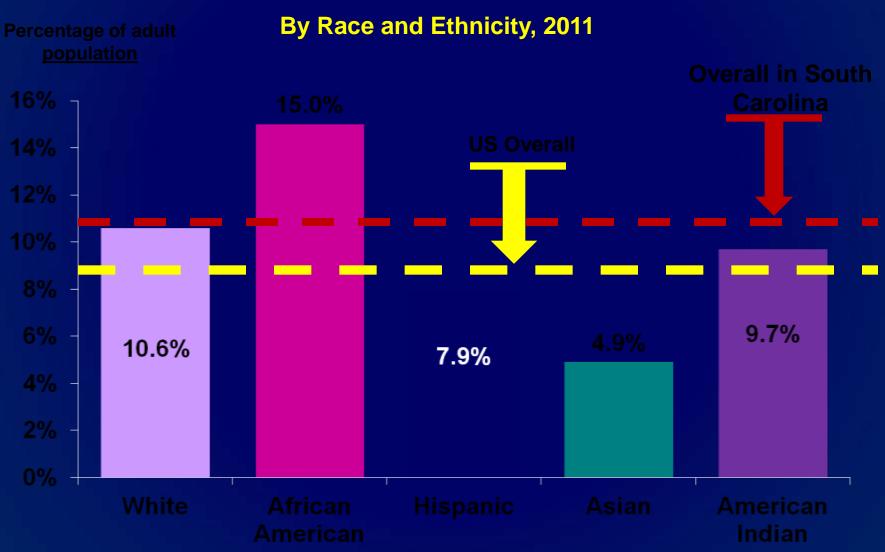

Adults Who Rate Their General Health as "Fair" or "Poor"

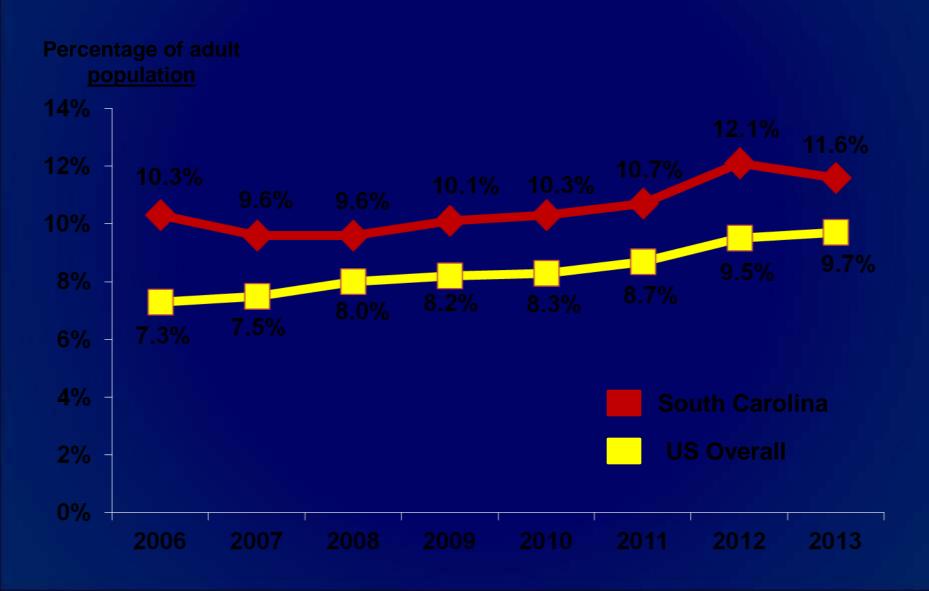

Estimated HIV Diagnosis Rate in Adults and Adolescents in South Carolina

Diabetes in Adults in South Carolina

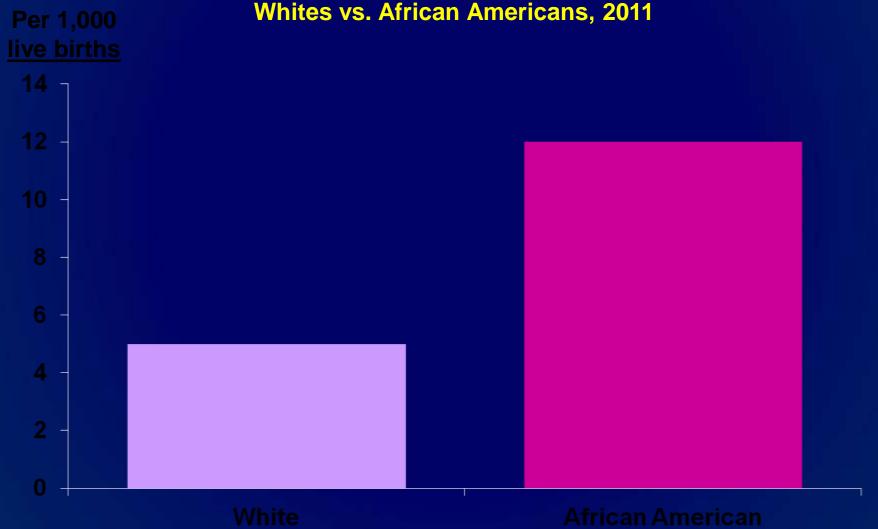

Diabetes

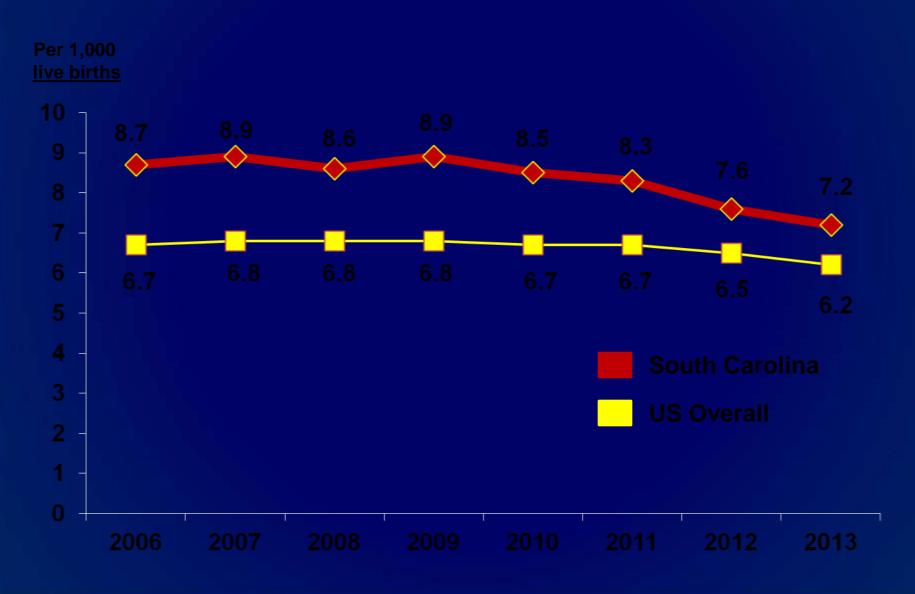

Infant Mortality in South Carolina

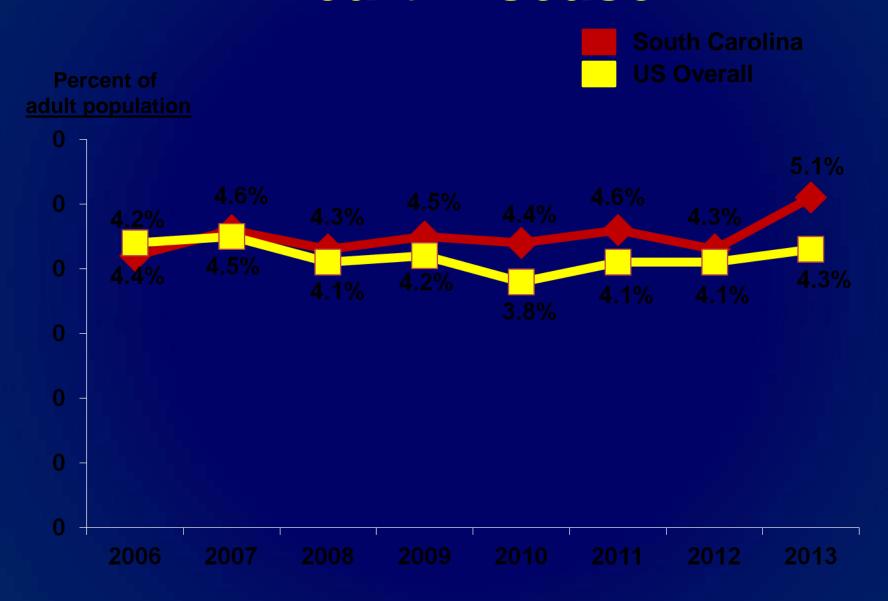

Whites vs. African Americans, 2011

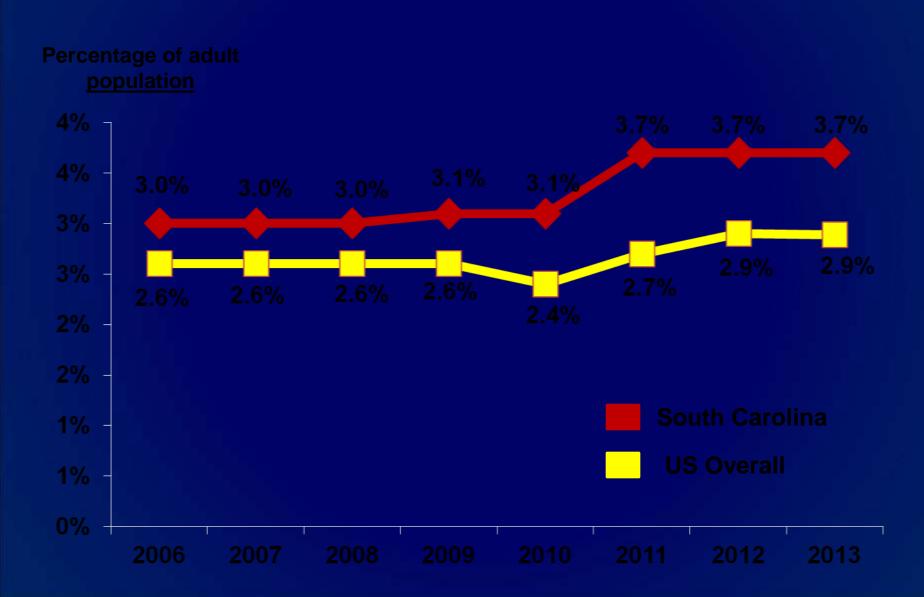

Infant Mortality

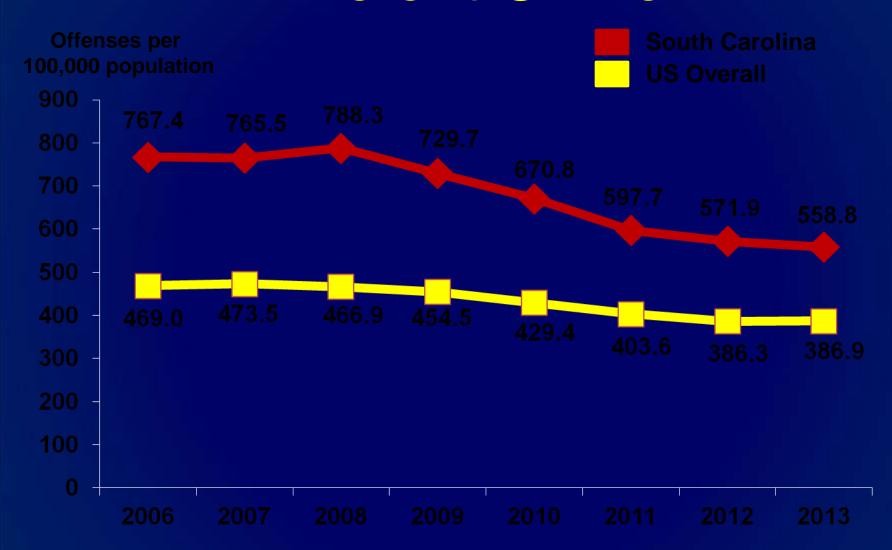

Heart Disease

Stroke

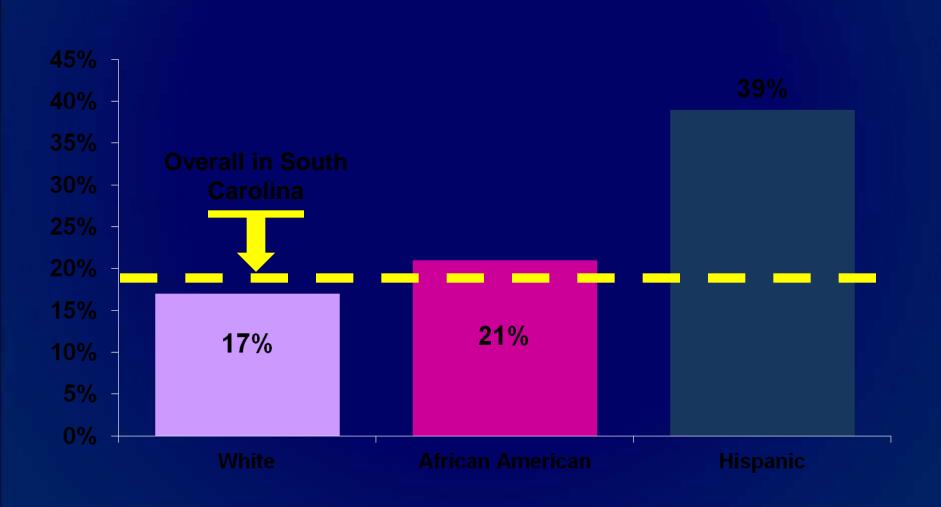

Violent Crime

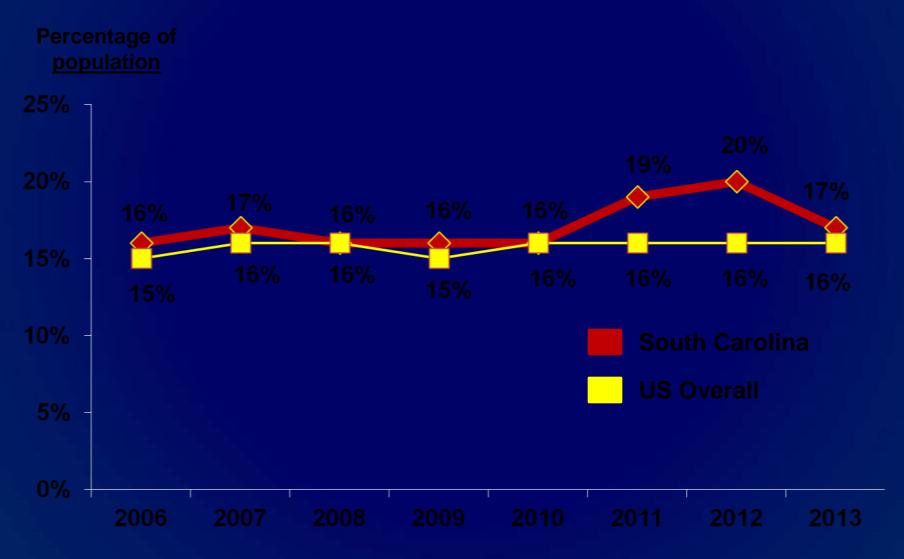

NOTE: "Violent Crime" statistics refer to the number of murders, rapes, robberies and aggravated assaults per 100,000 population

Uninsurance in South Carolina

By Race and Ethnicity, 2011-2012
